# PRICE DISCOUNTS

## Full Flow Forwarder FFF discount

Discount available only for users of the Tff product line for complete handling of the Freight - from acceptance by Tfs/Tff, through posting of the freight (as part of Private Freight or SmartMatch Freight) to the acceptance of this posted freight by Tff or Tfc.

**50%**

of the calculated fee  
for Freight Acceptance

## Load Monitoring Carrier LMC discount

Discount available for the carrier or forwarder for the consent and provision of monitoring as part of Load Monitoring at the request of the Orderer. The discount reduces the micropayments accrued in a given billing period for "No-touch Load", "Best carrier Load" or "SmartMatch Load". This does not apply to monitoring shared via the TransTask mobile app.

**0,25 €**

net per sharing

## Total Monthly Volume TMV discount

Monthly discount on the total sum of all monthly payments accrued in a given billing period. Automatically calculated using the logarithmic function.

The base for TMV calculation does not include the annual subscription fee for Freight Exchange and ADDITIONAL FEES for SEATS

The logarithm on the basis of which the discount is calculated

**= 25% \*  
 $\log_{10}(X/(n * FE))$**

X - accrued payments in the billing period in an amount not less than 345\*  
n - number of units/branches within one VAT invoice  
Fe - unit value of subscription fee for Freight Exchange
